Community Development

Come on in!

**Join us for a public meeting about the proposed Orton Junction
and expanding the city limits and urban growth area.**

**PUBLIC MEETING:
URBAN GROWTH AREA AMENDMENT: ORTON JUNCTION**

Please join the City of Sumner for a Public Workshop on the Orton Junction Amendment. This Amendment would extend the City's Urban Growth Area (UGA) boundary to the south and encompass approximately 300 acres. The plans for this area include new retail businesses, freeway-oriented commercial zoning, high density and low density residential uses and a YMCA. Please see the attached map showing these proposed land use designations areas.

Whether your property is within the 300 acres or whether you're a neighbor, we want to hear what your thoughts are. We look forward to your comments and participation at the workshop. You can find more information to date on the Orton Junction Amendment on the City of Sumner's website: www.ci.sumner.wa.us.

The Public Workshop will be Tuesday, April 6, from 6:30 to 8:30 pm in the City Council Chambers of Sumner City Hall, 1104 Maple Street, Sumner, WA.

If you have questions before the meeting or comments and are unable to attend, please contact Ryan Windish, planning manager, at 253.299-5524 or ryanw@ci.sumner.wa.us.
